## **Komatsu Forklift Parts**

Komatsu Forklift Parts - Komatsu Forklift U.S.A. Inc., an associate of the Komatsu Ltd. family, has an encouraging reputation for building robust and dependable forklifts. They are recognized worldwide as a business who has a proud heritage and who maintains a benchmark of quality in equipment manufacturing and intention.

Komatsu Forklift U.S.A., Inc., a division of Komatsu Forklift Co., Ltd., International Division and Komatsu Utility Co., Ltd remains devoted to their promise of helping to foster a healthier tomorrow. The company heritage dates back to 1921, when Komatsu, Ltd started out in Japan as a producer of mining and construction equipment. Very soon the company grew into an industry leader and was accountable for constructing Japan's first contemporary bull dozer and farm tractor.

Over the past couple decades, Komatsu has developed to become a global giant thanks to their strength and expertise within the various fields of logistics, excavating, construction and mining. With innovative designs and technological superiority, they remain at the forefront of these industries.

Since 1945, Komatsu Forklift Co. Ltd has grown tremendously. Using modern design techniques and superior manufacturing capabilities, Komatsu has distinguished itself through the engineering of reliable and durable forklifts that clients from around the globe have come to rely on. In 1976, Komatsu Forklift U.S.A., Inc was created to meet the growing need for its goods in the North American marketplace. To better costs and efficiencies, a contemporary plant was built in Covington, Georgia in 1990, to merge all U.S. Komatsu Forklift product support and production operations.

Komatsu Forklift U.S.A. continues to satisfy the requirements and demands of their customers worldwide while remaining a primary producer and dealer of innovative lift trucks and forklift accessories. Central and Latin America, Mexico, the Caribbean and South America are home to many of Komatsu's satisfied clients along with their North American clients.

After years of providing consumer service and maintaining relationships, Komatsu Forklift recognizes that meeting the customers' wishes is vital. All new product development at Komatsu starts first with the client. By welcoming contributions and opinions, they are able to determine client wishes and expectations then cultivate revolutionary creations and then build to exceed Komatsu Engineering Principles. Assuring customers that quality is planned from the start and continued throughout the manufacturing, service and sales processes, allows Komatsu to end up with a first-class product from start to finish.

The engineers at Komatsu are experts who specialize in designing heavy-duty technologies, lift trucks and construction equipment. Their design expertise assures that each piece of equipment will endure in even the toughest functions and environments. Adherence to stringent engineering principles permits Komatsu Forklift to meet ISO 9001 standards. Computer aided design and rigorous in-house quality standards all add to high-class forklift products. Komatsu Engineering Standards translate the current and innovative technology used in advanced mining and construction equipment into world class equipment.

The modern and well-organized manufacturing facility in Covington, Georgia is a full service plant. This state-of-the-art plant starts the production process with raw steel which is then welded, fabricated and primed. Once assembled and painted the forklifts are ready to leave the facility and enter the market. Maintaining quality control throughout the duration of the manufacturing process, assures customers that the quality is built into Komatsu's products from the very beginning.

Komatsu believes given that a product is only as worthy as the people who sell and support it, their sellers make all the difference. Komatsu Forklift is proud of their committed seller networks who strive to exceed expectations. Specialized in all aspects from sales, service or operating training, or aftermarket support, their diverse network of knowledgeable and capable experts are available. Komatsu Forklift Vendor locations across the country have a Komatsu OEM parts on-hand to offer the essential service required to keep customers' operations running effortlessly. Computerized, real-time access with next day delivery from their highly automated supply hub is an alternative option. The online K-Link system assists sellers with online components management, service and acquisition for all major forklift models.

At Komatsu Forklift U.S.A., Inc. they understand that their world-class businesses rely on Komatsu lift trucks in their daily operations. So Komatsu focuses their attention on their national account clients enabling them to benefit from a unique partnership that lets them tailor their relationship in order to increase customer efficiency and profits. Komatsu countrywide account customers have access to on-line components and operations support system and a wide-ranging fleet administration program, offering the ability for Komatsu to be their total solution for any forklift issues.

The well-organized and reliable team members at Komatsu Forklift U.S.A., are dedicated to offering excellent customer support no matter if it arrives in the form of training, product sales, aftermarket support, and longterm maintenance. They want to confirm that the customer support offered will help their customers meet or exceed their company targets while establishing strong working relationships in the process. Komatsu strives to be familiar with each of their customers' distinctive ways of doing business and enjoys working together to develop an arrangement to best insure their ongoing success.

Komatsu encourages you to get in contact with one of their many local Komatsu lift truck dealers to discover more about the several products and services available. Customer satisfaction and support are two of the companies top priorities and it is easy to see why thousands of clients world-wide depend on the Komatsu family of products on a daily basis.
