

## TCM Forklift Parts

TCM Forklift Part - In the global trade of material handling, forklifts play an important role for transporting industrial goods. First innovated as industrial vehicles during the 1930s in the United States of America, forklifts gained recognition after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

Originally started as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. before becoming recognized as the TCM Corporation. Started by Mr. N. Niwa manufactured Japan's very first forklift. Over the years, TCM forklifts have become a worldwide leader in lift truck manufacturing and have built a solid reputation with the business. TCM began building forklift manufacturing sites outside of Japan in the 1980s and is now engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

With over 50 years of accumulated technology and expertise, TCM has been proudly making several models of industrial lift trucks, making their models known all around the globe. With an energetic and strong staff, TCM has been able to constantly work towards becoming a future leading material handling company.
